

**WORKING TOGETHER ON THE PATH
TO SALMON RECOVERY:
H-INTEGRATION AND ADAPTIVE
MANAGEMENT**

June 20th and 21st 2006 Workshop

9 a.m. to 4 p.m. both days

Edmonds Conference Center

201 Fourth Avenue North, Edmonds, WA 98020

Hatchery, Harvest, Habitat Integration &
Adaptive Management

Feedback

THE FIRST FOCUS OF ADAPTIVE MANAGEMENT: H-INTEGRATION

Advancing the integration of habitat, harvest and hatchery strategies and actions is critical to helping salmon recover. We need your input to help refine the H-integration strategies presented at this two-day workshop. Before you leave, please provide us with your feedback on the information presented. (Please use back of sheet if needed. Thank you for your participation.)

Does the proposed approach (i.e. the steps, suggested tools, next steps) for advancing H-Integration make sense?

What improvements would you suggest to the approach?

What types of general support, technical, strategic or otherwise should be made available to H-managers?

Is there something we didn't include in the two-day workshop that you would suggest adding?
