

**WORKING TOGETHER ON THE PATH  
TO SALMON RECOVERY:  
H-INTEGRATION AND ADAPTIVE  
MANAGEMENT**

June 20th and 21st 2006 Workshop  
9 a.m. to 4 p.m. both days  
Edmonds Conference Center  
201 Fourth Avenue North, Edmonds, WA 98020

Hatchery, Harvest, Habitat Integration &  
Adaptive Management

**Six steps to integration**

**STEP 1: IDENTIFY PEOPLE ACROSS ALL H-SECTORS NEEDED, AND INVOLVE THEM:**

What key decision-makers across the Hs need to be brought into plan implementation? List the key decision makers and implementers in habitat, harvest and hatcheries in your watershed. Circle those who are regularly working together with other H's on salmon recovery. Put a star by those whose work should be more integrated into the recovery strategy.

What challenges are preventing the level of involvement you think is necessary for implementing an effective recovery strategy?

What are possible ways to achieve broader or more effective involvement?

What are effective ways to maintain the level of involvement needed?

What can your agency/watershed do to encourage involvement?
